Official Statement regarding ingredients of **PROFISIL® Fluoride Varnish**

Dear Sir or Madam,

Thanks for your interest regarding our product **PROFISIL® Fluoride Varnish**.

PROFISIL® Fluoride Varnish contains 5 % sodium fluoride in a mucosa-friendly, pleasantly flavored dimethicone gel. This formula does not contain ethyl alcohol or colophony (rosin), thus reducing the potential of soft tissue irritation or rosin-based allergies.

Furthermore, we confirm that **PROFISIL® Fluoride Varnish** is 100 % free of dyes and color pigments. The product does not contain optical brighteners such as Titanium dioxide or Calcite.

PROFISIL® Fluoride Varnish is made in a facility and with equipment not exposed to preservatives, peanuts and tree nuts (including almond, Brazil nut, cashew, chestnut, hazelnut (filbert), macadamia nut, pecan, pine nuts, pistachio, walnut).

PROFISIL® Fluoride Varnish contains no glutens.

If you have further questions regarding our product or our portfolio, please do not hesitate to contact your local contact person. We are always willing to support.

Best regards,

Kettenbach GmbH & Co. KG
